

PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-000098-LIC
 ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample **Zombi Ghastly Grape**

Sample ID	SD221111-020 (54905)	Matrix	Edible (Other Cannabis Good)
Tested for	HONEST PP&D, LLC	Received	Nov 10, 2022
Sampled	-	Reported	Nov 14, 2022
Analyses executed	FP-NI20	Unit Mass (g)	60.0
		Serving Size (g)	5.0

Laboratory note: unit size = 12 pieces | Note: serving size is 67% higher than what is claimed on package

The estimated concentration of the unknown peak in the sample is 6.71 mg/g | Currently PharmLabs Laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)δ8-THC or d9-THC. At this time there are no reference standards available for (+)δ8-THC. (+)δ8-THC is a different compound from the main (-)δ8-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)δ8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)δ8-THC and d9-THC with the majority, if not all, of the concentration being (+)δ8-THC. Total δ8-THC is estimated to be 44.01 mg/g.

CANX - Cannabinoids Analysis

Analyzed Nov 14, 2022 | Instrument HLPC
 Measurement Uncertainty at 95% confidence 7.806%
